

## **Marius and Nozipho Swart**

### **2024 ZEMA Annual Report**

This year was once again a hard year for my wife, Nozipho and I. It was a year of many transitions and turns. However, the Lord did provide for us.

In ministry ZEBS went on as normal with our monthly teaching at Sunbury. In addition, there are many opportunities that we got to minister to the amaZioni students personally in one-on-one discipleship.

Nozipho worked hard this year translating for the BibleProject which has helped us also to stay afloat financially. She will be completing this project early next year.

Our couples' ministry is growing from strength to strength as 4 new couples joined us this year! We are now consistently at 15 couples that come to our events during the year. We have retreats, seminars and workshops to help couples improve their marriage.

My wife has continued her work with her "One Heart ministry" which is an outreach ministry to younger women who have been hurt by the church and where they seek to grow together and be discipled by some of the older ladies who share from their own experiences for the purpose of growing in Christ.

Concerning the local church in which we have served, we feel a strong need to find another fellowship in which to be a part. Next year we will be attending other churches to see where God may plant us to continue to serve in the local church capacity.

### **Prayer requests:**

Pray for our family as Satan is attacking us

Pray for my parents who are suffering financially.

Pray for my mental health as I am struggling.

Pray for the vision of where God will have us next year.

May the Lord continue to bless you all as you partner with us in prayer and support  
In Christ alone.
